

## Infotech Enterprises Signs Three Year Agreement with VolkerWessels Telecom

**Hyderabad, 2<sup>nd</sup> March 2009** - Infotech Enterprises Limited (IEL), a global technology solutions provider with headquarters in Hyderabad, India, announced that it has signed a three year agreement, through Infotech Enterprises Benelux BV (a step down subsidiary of IEL), with the Dutch telecommunications engineering and technology company **Volker Wessels Telecom**. The agreement, which is for an initial period of three years, enables Infotech to provide a new service offering in Telecommunications Engineering to telecommunications industry worldwide. This cooperation agreement further demonstrates Infotech's prominent position as a leading supplier of specialist solutions including geospatial services.

On signing the agreement, **Mr B.V.R. Mohan Reddy, Chairman and Managing Director of Infotech Enterprises Limited**, said *"Telecom is a key practice in our GIS domain. We are delighted to be working in partnership with VolkerWessels Telecom. This agreement will enable us to offer a new service offering in Telecommunications Engineering. Our long term relationships with leading Telecom companies from Europe enabled us win the trust and confidence of Volker Wessels Telecom to be their partner."*

**Mr. André Meijer, Director, VolkerWessels Telecom**, said: *"Partnering with Infotech will give us even greater scope to deliver a world class service to our major customers. Access to the level of resources and industry expertise available from Infotech will make a significant difference to our delivery capabilities over the coming years."*

Infotech and VolkerWessels Telecom have a long standing relationship which started during the KPN total conversion project in which Infotech converted 130,000 kilometres of telecom network data and VolkerWessels Telecom provided Infotech with a Quality Team and was also responsible for the onshore back office.

VolkerWessels Telecom is a leading supplier of infrastructure services to European telecommunications providers. The three year agreement announced today will enable VolkerWessels Telecom to extend its capacity to carry out drawing registration and engineering work for copper and fibre telecommunications networks, using Infotech's extensive resources and expertise. The agreement follows the completion of

a highly successful pilot project through a hybrid delivery model combining both onshore and offshore. Engineering and registration tasks will be executed on Cramer OSS platform, GE Smallworld and Intergraph GIS technology.

### **About Infotech Enterprises Ltd –**

Founded in 1991, we are a Global IT services and solutions provider specializing in Engineering Services, Geographic Information Services (GIS) and IT services. We provide services to a wide range of industries - Aerospace, Rail, Automotive, Marine, Energy, Plant Engineering, Utilities, Telecom (operators), Government, Retail, Consumer Electronics, Medical Electronics, Semiconductor, Telecom (Manufacturers) and Computing industries.
