

Infotech Enterprises announces long term multiyear Engineering Services contract with Hamilton Sundstrand Corporation

Hyderabad India, 18th January 2010 – Infotech Enterprises Limited (IEL), a global technology solutions provider with headquarters in Hyderabad, India, announced that it has signed a long term agreement with Hamilton Sundstrand Corporation (HSC), a subsidiary of United Technologies Corp. [NYSE: UTX], to provide embedded software and electronic engineering design services worldwide. This new four year contract builds on a relationship that started in 2005 and will enable Infotech to work with all HSC divisions across multiple disciplines and projects in a real-time engineering environment with an opportunity to add 400 engineers in the next three years.

Mr. David B Carter, Vice President, Engineering, Hamilton Sundstrand Corporation said "HSC has Centres of Excellence in Mechanical Design and Technical Publications with Infotech at Hyderabad and Infotech's contribution in these engineering areas has always met our expectations. This has encouraged us to extend this relationship further and use Infotech's services for significant requirements in Embedded Software and Electronics design."

Mr B.V.R. Mohan Reddy, Chairman and Managing Director of Infotech Enterprises Limited, said "We are very excited with this new contract, which will allow us to consolidate our position as a leading engineering services provider globally, and allow us to make a big move towards embedded software and electronics design. With integrated engineering capability in Mechanical, Tech Pubs, Embedded and Electronics, Infotech will see a surge towards system/subsystem level development opportunities. We thank HS management for choosing us from among several competing offers. Infotech commits to provide a combination of functional and domain expertise, and capacity with cost effectiveness through our global delivery model to attain the highest level of customer satisfaction. It is also our endeavour to make innovative contributions that will help our customer in maintaining competitiveness in a changing global environment. We will align our services to HSC's strategic objectives."

Mr. Rajeev Lal, President – Strategic Business Initiatives, Infotech Enterprises Limited added "Our current engagements with HS are highly successful. Our mechanical design centre for HSC has been certified at the highest quality certification by HSC. In collaboration

with HS engineers, we have executed several projects that have improved product quality and productivity for HSC. We have demonstrated our passion for continuous improvement through our 'Winning Together through Productivity' initiative. It will be our endeavour to take our engagement to the next level, with full life cycle support to HSC products through our Centres of Excellence in Mechanical, Tech Pubs, Embedded SW and Electronics."

About Hamilton Sundstrand Corporation

With 2008 revenues of \$6.2 billion, Hamilton Sundstrand is headquartered in Windsor Locks, Conn. Among the world's largest suppliers of technologically advanced aerospace and industrial products, the company designs, manufactures and services aerospace systems and provides integrated system solutions for commercial, regional, corporate and military aircraft.
